BACHELOR OF SCIENCE in Aeronautics

About the Program

If your ambition is to learn everything about aircrafts, from aerodynamics to commercial pilot operations, then our course is for you.

The incredible growth of the airline industry over the past years shows no signs of slowing. Some expect the current average of over 100,000 flights per day will double in the next 20 years. Job opportunities in the industry are growing and if you are interested in this exciting field this program will help you achieve your dreams. Today, many jobs in Aeronautics require a 4-year degree and this course is specifically designed to help you acquire one of the kinds of jobs within the industry.

**Pilot your future to new heights
with our Bachelor of Science in Aeronautics program!**

Upon completing our Aeronautics program, you will gain the professional skills needed to land your dream job in manufacturing, maintaining, and flying commercial jets.

What You Will Learn

The program has been designed to match the International Civil Aviation Organization's standards of aviation education with the aim of producing

highly qualified graduates that meet the demands of the air traffic control industry.

The curriculum is designed to give you a good understanding of aircraft operation systems, flight control systems, and aeronautical communication systems.

You will be taught all aspects of modern aviation operations, which are necessary to meet the needs of the aeronautics industry in the ASEAN Economic Region.

St Theresa offers a variety of teaching approaches, ranging from lectures & seminars to workshops & simulations. Throughout the program, you will develop essential aeronautical competencies and cognitive abilities via professional training with leading experts in aeronautics. Courses encourage students to further develop a sense of responsibility, morality, and ethics, all of which are in high demand by the aeronautics industry.

If you wish to study further and pursue a career as a commercial pilot, you can choose to study with our partnered flight training school where you will be able to acquire an official pilot's license, issued by the Government of Thailand.
