# BACHELOR OF EDUCATION in English / Math / Science

“ ARE YOU READY TO TAKE THE FIRST STEP  
IN BECOMING A TEACHER? ”

Being a teacher means that you will have the important job of intellectually, ethically and spiritually educating future generations of leaders. With our Bachelor of Education program, a whole world of opportunity awaits you, in one of the most important professions in society.

## About the Program

Our Bachelor of Education program is a 5-year program approved by the Teachers Council of Thailand and the Office of the Commission on Higher Education. The program focuses on developing skills and expertise needed in teaching in English, through integration of knowledge in innovation, information technology, modern educational materials, and effective classroom management, together with a variety of activities to help achieve maximum efficiency in the teaching profession.

Your fifth year consists of a one-year internship in schools as a teacher. You will be closely supervised by administrators of the school together with the teachers at the chosen schools.

## What You Will Learn

### Head of English Division

Mr. Mando Dario Abdullah

The English Major program is designed to help you understand the newest proven pedagogy and principles in English teaching. Stress is on student-centered learning, with in-class activities that emphasize English development and good teaching practices. It provides extra-curricular activities throughout the program to help you advance academically, socially, nationally and internationally.

Activities include: strengthening English speaking skills through constant practice with native speakers; developing a variety of educational activities and special projects; and contributing to social and academic services for the improvement of the development of communities.

### Head of Mathematics Division

Dr. Bandyopadhyay Dwiptendra

Integration of the ASEAN community has influenced the increased importance of English usage in the classroom. Mathematics teachers are no exception. St. Theresa International College is proud to be the first private university-level institute to offer the international program for Bachelor of Education in Mathematics. If you are planning on becoming a teacher with expertise in

Mathematics, English, and advanced teaching methodologies, this program is the best choice for you.

### Head of Science Division

Dr. Casta Janet Sudango

In today's world, man strives for further advancement in science and technology. This advancement can only be achieved through teaching our youths the basic and advanced levels of science. This major gives you the skills needed for inspiring students to pursue scientific curiosities and make well-informed decisions throughout their studies.

Our Bachelor of Education in Science aims to prepare you for leadership roles as science teachers of primary and secondary schools in Thailand or abroad. Students will be equipped with knowledge for teaching the basic levels of science in biology, physics, geology, geography, and chemistry.
